PROFESSIONAL EXPERIENCE

PCTO Experience | 2021
During this work-study experience, together with three other students, we developed a full-stack application capable of managing reports for the Municipality of Mercato Saraceno.

DMA Frontend Developer | 2023 – NOW
Currently, I'm working at DMA in Cesena, a position I secured right after finishing high school. I initially joined as an intern and was later hired part-time while completing my IT degree.
At DMA, I have developed both technical and interpersonal skills, gaining valuable experience while collaborating with both senior and junior professionals. This opportunity has given me my first real experience in the working world, allowing me to grow in a dynamic environment and strengthen my expertise and adaptability in the field.

EDUCATION

ITIS Blaise Pascal Cesena | 2017–2022
100 e laude
Alma Mater Studiorum – Università di Bologna | 2022–2025

CERTIFICATES

CAE B2 | 2023
HubSpot CMS | 2023
